SUMMARY

Next-generation security & cloud technologist with hands-on experience in building secure, scalable systems and cloud-native workflows. Proficient in Azure & AWS fundamentals, Kubernetes, Docker, CI/CD pipelines, IAM, VAPT, and modern web application security. Recently completed advanced certifications in Information Security & Cryptography, Cloud Infrastructure Management & Orchestration, and Vulnerability Assessment & Penetration Testing (VAPT), with practical exposure to SIEM basics, threat intelligence, and prompt-injection/AI security defenses.

Built security-first projects including an *Ethical Crowdfunding Checker* and a *Clickstream ETL Pipeline* (AWS Glue, PySpark). Demonstrated leadership as Student Manager and Student Council member—skilled at coordinating technical initiatives, corporate interactions, and event operations. Seeking internship or entry-level roles in **Cloud Security, Cybersecurity Engineering, SOC, or DevOps** to apply secure engineering practices and AI-aware threat detection.

TECHNICAL SKILLS

Cloud Technologies:

Microsoft Azure (Core Services & Architecture), AWS & Google Cloud Fundamentals, Cloud Architecture (Design Decisions), Cloud Networking & Security, Identity & Access Management (IAM), Audit & Compliance, Docker & Kubernetes (Intermediate), CI/CD Pipelines, AWS VPC, Subnets, Security Groups, Cloud Monitoring (AWS + GCP), Cloud Containerization & Orchestration, Infrastructure as Code (IaC) Basics.

Cybersecurity:

Security Fundamentals, Penetration Testing (VAPT), Zero Trust Architecture, Risk Management, Vulnerability Assessment & Management, Threat Analysis, SIEM Basics, Cyber Threat Intelligence, Incident Response, Threat Detection, Prompt Injection Vulnerability Mitigation, Generative AI Security, AI-driven Threat Analysis, SIEM (Basics).

Ethical Hacking & Web/App Security:

Ethical Hacking Tools & Techniques, Burp Suite, OWASP Top 10, Web Security Testing, Access Control & Session Security, IoT Device Security, API Security Testing, OWASP ZAP Testing, Proxy Servers, Web Scraping Security, JSON Security Concepts.

Networking:

CCNA (200-301) Concepts, TCP/IP, Routing & Switching, Network Security, Cryptography, Secure Network Design.

DevOps & Tools:

DevOps Foundations, DevSecOps (2022), CI/CD Basics, Azure DevOps (Beginner), Git & GitHub Version Control, Jira (Sprints, Boards, Scrum), Ansible Basics, Git Advanced (Workflow & Conflicts), Automation Pipelines.

Containerization & Virtualization:

Docker, Kubernetes (Basics), Microservices Concepts, VMware, Hypervisors, Virtual Machine Administration.

Internet of Things (IoT):

IoT Architecture & Components, IoT Protocols (MQTT, CoAP), Sensors & Actuators, IoT Security.

Programming & Computing:

Algorithms & Data Structures, Pseudocode & Logic Building, Python (Beginner–Intermediate), Problem Solving.

Database Technologies:

MongoDB (NoSQL), SQL Fundamentals, Database Design & Data Modeling.

Productivity & Collaboration:

Microsoft Excel (Advanced Formulas, PivotTables, Dashboards), MS Office Suite, VS Code

PROJECTS

Website Clickstream ETL Pipeline (*PMKVY Project*)

<https://github.com/shrreeeram/PMKVY-Project---Website-Clickstream-ETL-Pipeline>

Technologies: Python, AWS Glue (PySpark), Amazon S3, Amazon Athena.

- Developed an ETL pipeline to process website clickstream logs and extract user behavior insights (session ID, user ID, page visited, timestamp).
- Implemented data cleaning, transformation, and query optimization using Athena.
- Added robust logging and error handling to ensure pipeline reliability.
- Gained exposure to Kubernetes cluster setup (EKS), Docker-based containerization, CI/CD concepts, and cloud-native monitoring tools through advanced cloud coursework.

Ethical Crowdfunding Checker (*Mini Project – Cybersecurity*)

<https://github.com/shrreeeram/Ethical-Crowdfunding-Checker>

Technologies: HTML, CSS, JavaScript, Python (Flask), Firebase, BeautifulSoup

- Built a crowdfunding platform with rule-based legitimacy verification to detect fake campaigns.
- Implemented basic fraud checks using company name validation and web scraping.
- Included admin approval system with clean, user-friendly UI for transparency.

EDUCATION

Bachelor of Computer Applications (BCA)

2023 -Present

Sri Balaji University, Pune

Specialization: Cloud Computing and Cyber Security

Higher Secondary Certificate (HSC)

Year of Completion: 2023

Late Bhalerao Rambhau Patil Science, Commerce, and Arts Jr. College

Marwad, Maharashtra

Stream: Science (PCMB)

COLLEGE LEVEL EXPERIENCE

Student Manager | Sri Balaji University, Pune

Jul 2023 – Jul 2025 | Pune

- Led coordination and execution of major institutional events including inter-college competitions.
- Ensured logistical planning, discipline management, and high-quality event flow.
- Supported faculty in operational activities, improving campus engagement and student participation.

Corporate Relations Team Member | SBUP

Jan 2025 – Jul 2025 | Pune

- Worked with HR delegates & corporate partners for internship and placement initiatives.
- Managed outreach databases and professional communication for recruitment activities.
- Assisted in soft skill & career readiness sessions to improve student employability.

Student Representative (Class Representative)

Jun 2023 – Jun 2024 | Pune

- Coordinated with faculty for academic scheduling, attendance, and student concerns.
- Represented the class during academic meetings ensuring timely communication and discipline.
- Appreciated for responsible leadership and sincere representation.

LEADERSHIP ROLES

Student Development Cell Member | SBUP

Jul 2025 – Present | Pune

- Key contributor to discipline & technical committees during university workshops and industry events.
- Focused on student growth through coordination of training sessions and guest engagements.

Student Council | Sri Balaji University, Pune

2023 – 2024 | Pune

- Supported management of academic, technical, and cultural events with strong leadership.
- Ensured operational discipline and smooth execution during high-stake events.
- Received appreciation for dedication, reliability, and teamwork.

CERTIFICATIONS

- Microsoft Office Specialist (MOS) – Excel Expert (MO-211)
- CCNA (200-301) - Certification Preparation Completed
- Ethical Hacking Fundamentals – LinkedIn Learning
- DevSecOps Foundations – LinkedIn Learning

- Cloud Architecture Foundations – LinkedIn Learning
 - IoT Security Foundations – LinkedIn Learning
 - MongoDB Essential Training – LinkedIn Learning
 - Information Security & Cryptography – Coursera (2025)
 - Cloud Infrastructure Management & Orchestration – Coursera (2025)
 - Vulnerability Assessments & Penetration Testing (VAPT) – Coursera (2025)
-
