SUMMARY

Security and cloud technology enthusiast with hands-on experience in building secure, scalable systems and cloud-native workflows. Strong foundation in **Cloud Infrastructure Management and Orchestration**, with practical exposure to **Docker, Kubernetes, CI/CD pipelines**, and **Identity & Access Management (IAM)**. Actively working with **Microsoft Azure and AWS** at a foundational and implementation level, with a growing focus on **secure cloud architecture and cloud security patterns**.

Experienced in **Information Security, Cryptography**, and **Vulnerability Assessment & Penetration Testing (VAPT)**, with practical exposure to **web application security, ethical hacking methodologies**, and defensive cybersecurity concepts. Currently pursuing **Certified Ethical Hacker (CEH) by EC-Council**, strengthening skills in network and OS security, threat modelling, SIEM fundamentals, and security assessment techniques.

Developed security-driven academic and personal projects including an **Ethical Crowdfunding Checker**, a **Website Clickstream ETL Pipeline using AWS Glue and PySpark**, and **REALITY X**, an **AI-based fake product detection system** leveraging computer vision and embedded hardware (ESP32-CAM). Experienced in modular project development, dataset preparation, backend integration, and hardware–software coordination.

Demonstrated leadership through student management and coordination roles, contributing to technical initiatives, event operations, and collaborative problem-solving. Passionate about continuous learning and applying security-first thinking to real-world systems and actively seeking **internship or entry-level roles in Cloud Security, Cybersecurity Engineering, SOC, or DevSecOps**.

TECHNICAL SKILLS

Cloud Technologies:

Microsoft Azure (Core Services & Architecture), AWS & Google Cloud Fundamentals, Cloud Architecture (Design Decisions), Cloud Networking & Security, Identity & Access Management (IAM), Audit & Compliance, Docker & Kubernetes (Intermediate), CI/CD Pipelines, AWS VPC, Subnets, Security Groups, Cloud Monitoring (AWS + GCP), Cloud Containerization & Orchestration, Infrastructure as Code (IaC) Basics.

Cybersecurity:

Security Fundamentals, Penetration Testing (VAPT), Zero Trust Architecture, Risk Management, Vulnerability Assessment & Management, Threat Analysis, SIEM Basics, Cyber Threat Intelligence, Incident Response, Threat Detection, Prompt Injection Vulnerability Mitigation, Generative AI Security, AI-driven Threat Analysis, SIEM (Basics). AI-aware security mindset with practical exposure to Prompt Injection defence and modern threat-analysis fundamentals.

Ethical Hacking & Web/App Security:

Ethical Hacking Tools & Techniques, Burp Suite, OWASP Top 10, Web Security Testing, Access Control & Session Security, IoT Device Security, API Security Testing, OWASP ZAP Testing, Proxy Servers, Web Scraping Security, JSON Security Concepts.

Networking:

CCNA (200-301) Concepts, TCP/IP, Routing & Switching, Network Security, Cryptography, Secure Network Design.

DevOps & Tools:

DevOps Foundations, DevSecOps (2022), CI/CD Basics, Azure DevOps (Beginner), Git & GitHub Version Control, Jira (Sprints, Boards, Scrum), Ansible Basics, Git Advanced (Workflow & Conflicts), Automation Pipelines.

Containerization & Virtualization:

Docker, Kubernetes (Basics), Microservices Concepts, VMware, Hypervisors, Virtual Machine Administration.

Internet of Things (IoT):

IoT Architecture & Components, IoT Protocols (MQTT, CoAP), Sensors & Actuators, IoT Security.

Programming & Computing:

Algorithms & Data Structures, Pseudocode & Logic Building, Python (Beginner–Intermediate), Problem Solving.

Database Technologies:

Microsoft SQL Server 2022, T-SQL, SQL Fundamentals, Database Design & Normalization, Performance Optimization, SSIS, SSRS, MongoDB (NoSQL).

Productivity & Collaboration:

Microsoft Excel (Advanced Formulas, PivotTables, Dashboards), MS Office Suite, VS Code

PROJECTS

Website Clickstream ETL Pipeline (*PMKVY Project*)

<https://github.com/shrreeeram/PMKVY-Project--Website-Clickstream-ETL-Pipeline>

Technologies: Python, AWS Glue (PySpark), Amazon S3, Amazon Athena.

- Developed an ETL pipeline to process website clickstream logs and extract user behavior insights (session ID, user ID, page visited, timestamp).
- Implemented data cleaning, transformation, and query optimization using Athena.
- Added robust logging and error handling to ensure pipeline reliability.
- Gained exposure to Kubernetes cluster setup (EKS), Docker-based containerization, CI/CD concepts, and cloud-native monitoring tools through advanced cloud coursework.

Ethical Crowdfunding Checker (*Mini Project – Cybersecurity*)

<https://github.com/shrreeeram/Ethical-Crowdfunding-Checker>

Technologies: HTML, CSS, JavaScript, Python (Flask), Firebase, BeautifulSoup

- Built a crowdfunding platform with rule-based legitimacy verification to detect fake campaigns.
- Implemented basic fraud checks using company name validation and web scraping.
- Included admin approval system with clean, user-friendly UI for transparency.
- Security Impact: Rule-based fraud detection, admin-governed approval workflow, and security-first design principles.

Personal Digital Portfolio (GitHub Pages Project)

<https://github.com/shrreeeram/shrreeeram.github.io/tree/main>

<https://shrreeeram.netlify.app/>

Technologies: HTML, CSS, JavaScript, GitHub Pages.

- Designed and developed a personal digital portfolio website to showcase projects, skills, and academic experience.
- Implemented a responsive and modern UI with structured sections including projects, skills, experience, and contact information.
- Used GitHub Pages for hosting and version control through GitHub, enabling continuous updates and easy project showcasing.
- Actively maintain the portfolio by updating content as new skills and projects are acquired.

Seat Reservation System (Cloud Infrastructure & Orchestration Project)

<https://github.com/shrreeeram/seat-reservation-system>

Technologies: Python (Flask), MongoDB, Docker, Microsoft Azure (Azure Container Instances)

- Developed a cloud-based auditorium seat reservation system (600 seats) using Flask with a clean

web-based UI.

- Implemented MongoDB for persistent seat data storage, enabling real-time seat availability and booking status.
- Containerized the application using Docker and deployed a multi-container setup (Flask + MongoDB) on Azure Container Instances.
- Gained hands-on experience with cloud deployment, container orchestration concepts, Docker image management, and Azure portal-based infrastructure configuration.

EDUCATION

Bachelor of Computer Applications (BCA)

2023 -Present

Sri Balaji University, Pune

Specialization: Cloud Computing and Cyber Security

- Semester Average: 7 CGPA (till 5th semester)

Higher Secondary Certificate (HSC)

Year of Completion: 2023

*Late Bhalerao Rambhau Patil Science, Commerce, and Arts Jr. College
Marwad, Maharashtra*

Stream: Science (PCMB)

- HSC Score: **73.67%**

Secondary School Certificate (SSC)

Year of Completion: 2021

Late P. K. Shinde High School, Pachora

- SSC Score: **77.20%**
-

COLLEGE LEVEL EXPERIENCE

Student Manager | Sri Balaji University, Pune

Jul 2023 – Jul 2025 | Pune

- Led coordination and execution of major institutional events including inter-college competitions.
- Ensured logistical planning, discipline management, and high-quality event flow.
- Supported faculty in operational activities, improving campus engagement and student participation.

Corporate Relations Team Member | SBUP

Jan 2025 – Jul 2025 | Pune

- Worked with HR delegates & corporate partners for internship and placement initiatives.
- Managed outreach databases and professional communication for recruitment activities.
- Assisted in soft skill & career readiness sessions to improve student employability.

Student Representative (Class Representative)

Jun 2023 – Jun 2024 | Pune

- Coordinated with faculty for academic scheduling, attendance, and student concerns.
 - Represented the class during academic meetings ensuring timely communication and discipline.
 - Appreciated for responsible leadership and sincere representation.
-

LEADERSHIP ROLES

Student Development Cell Member | SBUP

Jul 2025 – Feb 2026 | Pune

- Key contributor to discipline & technical committees during university workshops and industry events.
- Focused on student growth through coordination of training sessions and guest engagements.

Student Council | Sri Balaji University, Pune

2023 – 2024 | Pune

- Supported management of academic, technical, and cultural events with strong leadership.
 - Ensured operational discipline and smooth execution during high-stake events.
 - Received appreciation for dedication, reliability, and teamwork.
-

CERTIFICATIONS

- Microsoft Office Specialist (MOS) - Excel Expert (MO-211)
- CCNA (200-301) - Certification Preparation Completed
- Ethical Hacking Fundamentals - LinkedIn Learning
- DevSecOps Foundations - LinkedIn Learning
- Cloud Architecture Foundations - LinkedIn Learning
- IoT Security Foundations - LinkedIn Learning
- MongoDB Essential Training - LinkedIn Learning
- Information Security & Cryptography - Coursera (2025)

- Cloud Infrastructure Management & Orchestration - Coursera (2025)
 - Vulnerability Assessments & Penetration Testing (VAPT) - Coursera (2025)
 - Advance Your MS SQL Server Skills - LinkedIn Learning
 - Become an IT Security Specialist - LinkedIn Learning
-
